CONFIGURATIONS

Triple Glazing

Provides the Ultimate Level of Energy Efficiency, Noise and Condensation Protection. Triple Glaze is a superior option for your home's energy management.

POWER PACK • 2 Lites of Superior LowE Glass & 1 Clear / 2 Dead Air Spaces filled with Argon.

LowE 366 / Argon Glass is Standard with NEAT Coating

LowE/366 Glass from Cardinal offers the ultimate glass performance by delivering the ideal balance of solar control, energy savings and high visibility, making it the perfect glass no matter where you live. Your home stays cooler in the summer and warmer in the winter.

NEAT Coating harnesses the sun's UV rays to loosen dirt so water can rinse it away, leaving windows virtually spotless. Your windows stay clean longer and clean easier.

Enjoy the view!

Elite 4000 Double-Hung

Double-Hungs shown with half-circles and colonial muntins

THE DESIGN

of the Double-Hung combines great looks with first class performance, offering you a dramatic upgrade as replacement windows or initial elegance for your new home.

Double-Hungs let in all the light for a clear, bright view.

ABOUT ENERGY STAR

The **ENERGY STAR** label was created by the Environmental Protection Agency (EPA) to help consumers quickly and easily identify windows and other products that save energy. The performance requirements for ENERGY STAR qualifying products are tailored to meet the energy needs of the country's different climate regions. Elite 4000 windows meet ENERGY STAR criteria for the entire United States.
